

Made by Collard

RECYCLED/PRIMARY AGGREGATES AND SOIL

We take inert waste from construction projects and recycle it into premium products for use again in building development. The result is so good that we use our recycled aggregates in our own award-winning ready-mix concrete.

AT A GLANCE Superior quality products for use in construction and landscaping

- ✓ Choose from a wide variety of high-grade recycled and primary aggregates and quality soils.
- ✓ Available loose or bagged for small domestic renovations and large commercial projects.
- ✓ Products are available to meet Series 600 and 800 Highways specifications or bespoke requirements.
- ✓ Order online for next working day delivery or collect from one of our nine recycling centres.

Made by Collard

RECYCLED/PRIMARY AGGREGATES AND SOIL

Type	Size	Suitable for
Recycled Aggregates		
2mm Recycled Soft Sand	0-2mm	Pipe bedding, laying service cables, gas pipes
4mm Recycled Sharp Sand	0-4mm	Concrete products, screed, landscaping
20mm Recycled Ballast	0-20mm	Concreting
10mm Recycled Shingle	5-10mm	Drainage, pipe bedding, landscaping
20mm Recycled Shingle	11-20mm	Drainage, pipe bedding, concrete products
40mm Recycled Shingle	21-40mm	Soakaways, landfill blanket layers, French drains
Type 1 Crushed Concrete	63mm-dust	Final capping layer in road construction
6F5 Crushed Concrete	125mm-dust	Sub-base for road construction or piling mats
No Fines Crushed Concrete	20-80mm	Permeable drainage, drainage, soakaways
6F3 Crushed Asphalt / Road Planings	0-63mm	A weather-coated stone which can be used for roads/tracks and hardstands
Primary Aggregates		
Building Sand	0-2mm	Bricklaying mortar
Grano Dust	0-6mm	Sub-base for paving and artificial grass, often used in mortar for floor screeds
4mm Sharp Sand / Grit	0-4mm	Concrete products, screed, landscaping
20mm Ballast	0-20mm	Concrete products, screed, landscaping
10mm Shingle	5-10mm	Concrete products, screed, landscaping
20mm Shingle	11-20mm	Concrete products, screed, landscaping
40mm Shingle	21-40mm	Concrete products, screed, landscaping
40mm Scalpings	40mm-dust	Sub-base suitable for roads and highways, compounds, driveways
Type 1 Limestone	63mm-dust	Sub-base suitable for roads and highways, compounds, driveways
Soil Products		
BS8601 Certified Subsoil	-	Used to build up levels before top-soiling
BS3882 Certified Topsoil	12mm	Allotments, NHBC housing developments
Screened Soil	6mm / 12mm	Commercial and industrial landscaping

WHY COLLARD?

Quality: The quality of our recycled aggregates is checked and certified by UKAS-accredited laboratories. Test certificates are available on request. In addition, our topsoil meets BS 3882:2007 standards.

Availability: We produce up to 500,000 tonnes of high-grade recycled aggregates each year to ensure we have what you need, when you need it.

Expertise: With 30 years of experience in construction, our experts are always on hand to help you choose the right products and quantities.

Looking after our planet,
sustainability in action

We demolish buildings, process the waste, and return the same material back to site in a different format for an alternative use.

It's this full-circle, sustainable operation that sets us apart from many of our competitors. Recycling construction and demolition waste saves you landfill and virgin material costs and reduces the carbon footprint of your operations.

What our customers say

Collard provided significant support to the M4 SMART Motorway Project, including the supply of recycled aggregates, ready-mix concrete, the onsite processing of site-won material under the WRAP Quality Protocol, and the restoration back to agriculture of land previously used as a construction compound.
