As a fully licensed asbestos contractor we're able to manage and remediate a full suite of hazardous materials expertly and in line with current legislation and approved codes of practice.

## AT A GLANCE

Working to make sure your project doesn't grind to a halt

- ✓ 30 years' experience solving hazardous material problems.
- ✓ Management of the entire process, from surveying to disposal.
- ✓ Full compliance with current regulations.
- ✓ Experience in a range of sectors and properties.

Safe handling

## HAZARDOUS MATERIAL MANAGEMENT SERVICE

Knowledge, experience, and resource

### In-house end-to-end capability

We use a self-delivery model to provide a one-stop-shop experience that guarantees our exceptionally high service and safety standards.

Our people are qualified, experienced, and trained in proper handling, containment, removal, and disposal techniques to mitigate exposure to asbestos.

Choosing Collard as your licensed asbestos handler means any asbestos-containing materials are dealt with responsibly, safely, and compliantly from start to finish. We bring peace of mind that your environment has been made safe to live, learn, and work in.

### Putting safety first

Safely handling asbestos is critical to protect employees and the broader community from its potentially fatal health risks. We take this responsibility very seriously.

Through our own in-house HSEQ department we're able to effectively and continuously monitor health, safety, and wellbeing company-wide.

### What our customers say

I have just been down to inspect the work at Priory Court and wanted to congratulate you and your team. Mike kept me fully updated via WhatsApp with photos to show progress, having visited today the house is immaculate and the team have done a first class job throughout. I shall not hesitate to recommend you in the future for any similar work.
