

Maximising your environmental performance

# METAL RECYCLING

**We process your metal waste to make it useful again.  
It's just one of the ways we recycle the past for the future.**

## AT A GLANCE

**At our Wokingham metal recycling facility, we:**

- ✓ Recycle both ferrous and non-ferrous metals
- ✓ Manage the recycling of aluminium, copper, brass, lead, and stainless steel
- ✓ De-pollute, dismantle, and recycle end-of-life vehicles
- ✓ Accept scrap metal from you or arrange collection from your site
- ✓ Offer you competitive prices for your metal waste

98% diversion from landfill

## METAL RECYCLING EXPERTISE

### WHY COLLARD?

**Capability:** We're one of the largest privately owned waste management companies in the south of England, capable of processing one million tonnes of waste each year.

**Experience:** The Collard family has been handling waste since the 1930s, and our dedicated metal recycling facility in Wokingham has been open since 2017.

**Sustainability:** We invest £8m annually in fleet, skips, and equipment to collect, transport, and recycle your metal waste efficiently and sustainably. Including the latest shredders and bailers, plus mobile plant that can process your metal waste in situ.

**Service:** Our commitment to our customers is reflected in the thousands of five-star reviews our customers have left us.

## A closed-loop solution

Almost all the metal waste we process can be repurposed into something of equivalent quality.

The technology we use tracks and reports the journey your waste metal goes on to help you fulfil your sustainability goals.

- ↓ Ferrous metals are sorted and processed on-site
- ↓ Some metals, like steel, are bulked, compressed, and cut to a bespoke size
- ↓ Non-ferrous metals are segregated and processed at our site for onward transport

## What our customers say

We have extensive supplier links in the waste industry, covering the whole of the UK and Collard sit at the very top of the tree. There are inevitably issues running a waste business but Collard's responsiveness to our queries and willingness to put things right rival the very best companies we have come across. They add a lot of value to our company as a result.

Phil Reid, Reid Waste Management

## Ways we help you

- ✓ Metal waste collection using specialist skips and vehicles at a time that suits you
- ✓ Metal waste deliveries accepted at our Wokingham metal recycling facility
- ✓ Competitive rates for your scrap metal
- ✓ Advice provided on recycling scrap metal
