

Zero-waste-to-landfill

RECYCLING THE PAST FOR THE FUTURE

We collect, track, transport, segregate, process,
and recycle waste to make it useful again.

AT A GLANCE

Industry-leading recycling and waste management service

- ✓ Nine dedicated recycling centres handling construction, demolition, commercial, and domestic waste.
- ✓ Multiple state-of-the-art recycling plants to maximise segregation and landfill diversion.
- ✓ An in-house advisory team to help you achieve your net-zero targets.
- ✓ Waste is recycled into premium aggregates, and used in our award-winning ready-mix concrete.

Our nine recycling centres cover Hampshire, Berkshire, Surrey, Oxfordshire, and Wiltshire.

Opening hours: Mon – Fri: 07:00 – 17:00 | Sat: 07:00 – 12:00

Zero-waste-to-landfill

RECYCLING THE PAST FOR THE FUTURE

WHY COLLARD?

Results: We make domestic and construction waste useful again helping you to meet your sustainability goals.

Premium products: We take inert waste from construction and demolition sites and recycle it into high-grade aggregates for re-use in building development.

Recognition: In 2021, our £2m cutting-edge plant that turns construction waste into ready-mix concrete was crowned Recycling Facility of the Year at the National Recycling Awards.

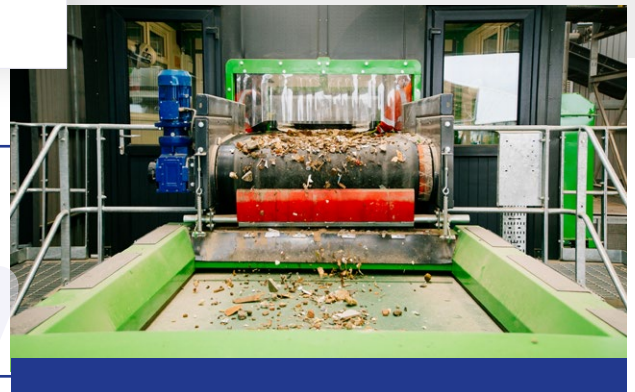

State-of-the-art facilities: We use the latest materials recovery processes, including air density separation and eddy current separators.

**Recycling the past
for the future**

We divert over one million tonnes of waste from landfill every year.

We segregate and process metals, plastic, paper, card, and construction and demolition waste to give it a second life and to help protect the environment.

What our customers say

We have worked with Collard for many years and recently supplied a state of the art waste processing and recycling facility at Reading. This is the first of its kind for Terex in the UK and sets Collard apart from the rest of the industry.

Thomas Mckiver
Head of Commercial, Molson Green
