

New, reliable, safe, and specialist vehicles

FLEET, PLANT, & EQUIPMENT

Every year we invest around £8m in specialist vehicles, plant, and equipment to support construction and demolition projects nationwide.

AT A GLANCE

Keeping your projects moving

- ✓ An impressive fleet of 150 specialist vehicles. From tipper trucks to ready-mix concrete lorries.
- ✓ Over 100 items of mobile plant, including excavators, shovels, dump trucks, shredders, crushers, and screeners.
- ✓ Nine licensed waste transfer stations, a wash plant, a fixed crushing line, ready-mix concrete plants, and the latest materials recovery facilities incorporating air density separation and eddy current separators.
- ✓ A variety of specialist vehicles and plant to hire out, including highly trained drivers and operators.

Reliable, sustainable, and safe

Commercially effective – and where possible – environmentally friendly vehicles, plant, and specialist equipment. For use on our own construction projects and available to hire out.

150 vehicles:

- Skip Lorries
- Tipper Lorries
- Grab Lorries
- Ready-Mix Concrete Lorries
- Trade Waste Lorries
- 7.5-tonne Cage Lorries
- 7.5-tonne Caged Vehicles
- Bulklers (Tractor Units and Trailers)
- Several Low Loader, HIAB, and Flat Bed Vehicles

100 items of mobile plant:

- Excavators
- Shovels
- Dump Trucks
- Shredders
- Crushers
- Screeners
- Dozers

Specialist plant and vehicle hire solutions:

- 8-wheel Tipper Lorries
- 8-wheel Grab Lorries
- Road Sweepers
- Artic Tippers for aggregate deliveries/haulage
- Artic Tippers for scrap metal collections and haulage
- Walking Floor Trailers
- Low Loaders
- HIAB Lorries
- Man & Van professional waste removal service

Hire can include the services of experienced, fully trained plant operators.

New, reliable, safe, and specialist vehicles

FLEET, PLANT, & EQUIPMENT

WHY COLLARD?

Reliability: Vehicles and mobile plant are replaced around every five years, and repaired and maintained onsite, so they don't let you down. Our MOT pass rate is well above the national average.

Safety: Our Gold accreditation from FORS – and our 100% green Operator Compliance Risk Score – demonstrates our commitment to fleet safety, efficiency, and environmental protection.

Scale: With 150 vehicles, 100 items of mobile plant, nine licensed waste transfer stations, a wash plant, a fixed crushing line, and ready-mix concrete plants – we've laid the foundations for success.

Skilled: Our people are fully trained to operate our vehicles and plant safely and competently.

Driving for more sustainable practices

As a company with sustainability at its core, we don't put the brakes on when it comes to the environmental performance of our fleet, plant, and equipment.

Our vehicles comply with London Low Emission Zone regulations and are EURO VI compliant. By upgrading them regularly, we emit lower carbon emissions too.

Industry praise

It's not about meeting the minimum standards set to keep vehicles and the public safe, it's about setting the bar well above it and raising the standards in the industry; preventative maintenance is key to reliability and performance. This team delivers and that's why they are RHA heroes.
